## THE SUMMER SESSION, 1963

The Summer Session is an integral part of the university year, with every unit represented in the summer offerings. All courses are equivalent to those offered in the regular year in method, content, and credit and enforce the same prerequisites.

The courses offered in the two terms of the Summer Session are chosen from the broader offerings of the regular year to meet the needs of the following:

1. Students enrolled during the regular year, and transferring students who wish to accelerate their progress toward degrees or preprofessional qualifications or to make up deficiencies.
2. Graduate students who find it necessary or desirable to use summer periods for study.
3. Teachers and school administrators who wish to complete degree requirements or take particular courses to improve their professional standing.
4. Transient students pursuing degree work at other colleges or universities.
5. High school graduates who desire to begin their college careers at once. By the latter means course loads during the regular year of freshman attendance are made more manageable.
